Since 1986 Infield has provided detailed information and data on the worldwide oil and gas industry. Infield Systems offer a range of databases, publications, mapping and analytical services to subscribers.

The Infield Worldwide Offshore Energy Database covers every single offshore field around the world from the 1940's through to future projects. It covers fixed platforms, floating production systems, floating storage offloading systems, infield pipelines, flowlines, umbilicals, subsea completions, subsea manifolds, subsea templates, platforms, flowlines, control lines and export trunk lines as well as onshore terminals, liquefied natural gas facilities and gas-to-liquids plants and Offshore Vessels worldwide. Infield tracks the operators of each project as well as the ownership of each offshore field development.

Published annually, this appeared as a supplement to the Register Book from 1967 and from 1977 as a separate register issued free of charge to subscribers to the Lloyd's Register of Ships.

It contains information on offshore units (including those under construction) and details of mobile drilling rigs able to operate in at least 50 feet of water, submersibles, diving systems classed by Lloyd's Register and selected work units (ships, barges and platforms used for offshore construction, maintenance, pipe-laying, heavy lifting, fire-fighting and submersible and diving support). Also includes details of owners of offshore units.

Researchers should check availability, accessibility and opening times with the repositories listed before making a personal visit.

Lloyd's Register Foundation, its affiliates and subsidiaries and their respective officers, employees or agents are, individually and collectively, referred to in this clause as 'Lloyd's Register'. Lloyd's Register assumes no responsibility and shall not be liable to any person for any loss, damage or expense caused by reliance on the information or advice in this document or howsoever provided, unless that person has signed a contract with the relevant Lloyd's Register entity for the provision of this information or advice and in that case any responsibility or liability is exclusively on the terms and conditions set out in that contract.
